# Fraud Facts

*Develop America's Airmen Today ... for Tomorrow*

- Fraud: **Misrepresentation** of a **material fact** with the **intent to deceive**
  - Can be a single act or combination of circumstances
  - Can be the suppression of truth or the suggestion of what is false
  - May occur by direct falsehood, by innuendo, by speech, by silence, by word of mouth or by look or gesture
- Most important element in fight against procurement fraud:
  - Recognition of conditions/events that allow fraud to go undetected
- Gov't personnel performing proper checks, and asking the right questions will greatly help prevent fraud
  - Puts contractors on notice that gov't personnel (working their contracts day-to-day) are "fraud detection savvy"

# WHO COMMITS FRAUD?

*Develop America's Airmen Today ... for Tomorrow*

- ***People do!***
- **They could be:**
  - Employees **or** Management
  - Contractor Personnel **or** Government Employees
  - Military **or** Civilian
- **Companies can be held responsible for actions of their employees and managers**

# Common Offenses

*Develop America's Airmen Today ... for Tomorrow*

- Bribery
- Making a False Statement or Claim
- Conspiracy to Defraud
- Accepting Illegal Gratuities
- Insufficient Delivery of Contracted Items
- Failure to Meet Specifications

# Bribery

***Develop America's Airmen Today ... for Tomorrow***

- Contractor offers money for preferential treatment during award process.
- Contracting Official accepts money, gifts or favors from a bidder in return for awarding a Government contract.
- An employee in the Contracting Office, who has no actual authority to award contracts, promises to ensure award a contract to a bidder if the bidder pays the employee money.

***The First Command***

# False Statement or Claim

*Develop America's Airmen Today ... for Tomorrow*

- COR falsifies DD250 for receipt of goods or services
- Contractor submits a claim for a progress payment indicating a specified amount of work had been completed on a project, when in fact the project is behind schedule and the work has not been completed.
- Individual signs contract and finance documents claiming to be a representative of a contractor, thus allowing the individual to receive unauthorized payments on numerous contracts.

# Conspiracy To Defraud

*Develop America's Airmen Today ... for Tomorrow*

- COR submits false receiving documents on behalf of a Contractor indicating a specific amount of materials on a contract had been received when in fact the materials were never delivered.
- Individual contacts a Contractor and requests they prepare several different proposals for one individual contract. The individual specifically asks the Contractor to prepare one in the “individuals name”, one in the “contractors name”, and to “invent” another one. The Contractor then prepares the proposals as requested.
- A Government representative instructs a contractor to submit invoices for materials which have not been received on a contract. The Contractor then submits the invoices and receives payment

# Accepting Illegal Gratuities

*Develop America's Airmen Today ... for Tomorrow*

- COR accepts manicures, spa treatments, and other personal benefits from the contractor.
- Contractor asks only for smooth processing of their invoices.
- Even if the COR is not favorably influenced by this “generous” act on the part of the contractor, the COR has accepted an illegal gratuity.
- FAR 3.101-2 - No Government employee may solicit or accept any gratuity, gift, favor, entertainment, or loan from a prohibited source

# Insufficient Delivery of Contracted Items

*Develop America's Airmen Today ... for Tomorrow*

- Contractor under two separate contracts to deliver 10,000 ballistic vests and 540 ballistic vests, only delivers 10,000 vests.
- Contractor pulls 540 vests from the first shipment and submits them on the second contract.
- Contractor ultimately receives payment for both contracts and the Government is short 540 vests.

# Failure to Meet Specifications

*Develop America's Airmen Today ... for Tomorrow*

- Contractor increases profits by providing goods or services that do not meet contract specifications
  - Such action is often difficult to detect because materials omitted from end products are not readily identifiable
- *Example -- A contractor uses one coat of paint instead of two; uses watered loads of concrete; installs inferior memory chips in computers; or uses inferior automobile replacement parts*
